

**You're invited to attend....
An information-packed Biopharmaceutical Seminar**

**"Awareness Training for Biopharmaceutical Shipping"
Featuring a review of the new regulation changes just issued by the DOT &
IATA/ICAO that everyone involved with the transportation of biologics needs to
be aware of.**

**Sponsored by MdBio and QuickSTAT,
"The Biopharmaceutical Shipping Specialists"**

Date: Wednesday, September 10, 2003
Time: 8:30 am -11:30 am (Continental Breakfast will be served)
Place: Marriott Bethesda
5151 Pooks Hill Road
Bethesda, Maryland 20814

About the Seminar:

Specializing in the worldwide transport of sensitive biopharmaceutical shipments, QuickSTAT's Dangerous Goods Instructor will focus on how to prepare shipments of commodities pertinent to biopharmaceutical shippers to include: infectious substances, diagnostic specimens, packaging with dry ice, MSDS interpretations and newly developed chemical mixtures not yet classified as to hazards. There will also be a review of the latest DOT and IATA/ICAO regulations changes that have a major impact on shipping clinical specimens.

Who should attend?

Clinical trials sponsors, monitors, investigators, CRA's, central laboratory staff, shipping and logistics personnel and anyone else involved in the biopharmaceutical shipping process.

About the Instructor:

Jay Johnson is Worldwide Clinical Trials Director for QuickSTAT and a Certified Dangerous Goods Trainer. As an expert in dangerous goods transportation, Mr. Johnson specializes in packaging solutions for the biotech industries. A recognized expert in regulatory requirements, he oversees the training of central laboratories and develops customized programs for customers worldwide, for the safe and efficient transport of clinical specimens.
